A HOUSE WITHOUT A HEART

(Janis Ian)

```
Asus2              F#m                          D
I can do what I want, choose where to haunt
                   Esus4
I live like a ghost in this town
Asus2              F#m                          D
See a movie at one, go to sleep with the sun
                    E7sus4
knowing you won't be around
D                  E/D
All the fami---liar places
D            E/D
All of the smiling faces

        A                              F#m
        They ask me how you are
                                     D
        I tell them you are far away
                     E7sus4
        but you're coming home soon
        A                              F#m7
        They smile and walk a---way
                           D
        leaving me a---lone to say
                   E7sus4
        that I'm lost without you

                D              E/D                      C#m7
                I miss you more than yester---day
                F#7                          Bm7
                More than words can say
                E7                           A     A7
                More than hands can pray
                D                  E/D                    C#m7
                I should have known it from the start
                                   F#7               Bm7
                that when---ever we're a---part
                              E7                     Asus2
                I'm just a house without a heart
```

I can stay out all night, leave on every light
Throw all the coupon books away
I can lock out the cat, she can live off her fat
I never liked her anyway

I miss you more than yesterday
More than words can say
More than hands can pray
I should have known it from the start
that whenever we're apart
I'm just a house without a heart

A7 D
And hearts break with---out a sound
E/D C#m7
and nobody sees
F#m B7
The heart you are holding now
E
is on its knees

I miss you more than yesterday
More than words can say
More than hands can pray
I should have known it from the start
that whenever we're apart
I'm just a house without a heart
