will likely get the best of us yet

Before you disappear
F#m7 Em7 – F#m7
if you can lend me half an ear I'll regret
Em7
If I treat you like a number
F#m7 Em7 – F#m7
it's because i can't remember your name
Em7
so have another cigarette
F#m7 Em7
and help me to forget why I came

Fly too high

Run too fast
B7
Fly too high

On dark & lonely nights,
I'm only right
when things are bright on the floor
Dancing & romancing
Gallivanting with a handsome I score
And if you don't believe me you should
see me when I'm ready to score
I'll lose my concentration
on a new infatuation I'm sure

Run too fast, fly too high
Run too fast, fly too high
Got no past, no goodbye
Run too fast, fly too high

G
Would you believe
G Am7
I was once gonna be somebody?
G
Packed up my bags
G Am7
and I took what I had to the city
C9
Man, it was rough to find
the best I could be
Em7
was just waiting for the limit
on a color TV

Now I've made it this far
Got a room with a bar
Bm/G#
and a view
B7 Em
and you fly too high

Hanging around on the infield
What do you steal
but another feel at the top
Making believe in the long run
when a shotgun
is the way to get out of the shop
Hang tail in a new jail
You can go bail
You can dance until you drop
But here's no fool like an old fool
in a new school – you just can't stop

Run too fast, fly too high
Run too fast, fly too high
Got no past, no goodbye
Run too fast, fly too high
